- Need a Dark Room for piece to be successful

Front Angle

Hologram Projection,  
(Video of Projection for “In my Image” Exhibition) 2021,  
Duration – 1 Minute, Looped

Side Angle

How the Projections and collages work together in a space

- Tight formation rather than spread out – videos look more effective closer together.
- Video/Projections – all the same footage, to be played in a loop.
- Can walk around Hologram – try and figure out what it is you're looking at – projected video can be seen from all sides.
- Projectors – people will cast their shadow onto the video when they walk in front of the projector and further distort it.

“In my image” Exhibition 2021, Snapshot featuring: ‘New Bodies’ Collages, 2 Video Projections, 1 Hologram Projection and 2 Screens
