Portraits of the City.

2021

Currently exhibiting at the Direct Art Gallery in Sutton Coldfield (the old BHS building)

J.WALL

“The work is a contemporary nod to the past, using figures to push the narrative of our everyday culture and weaving in the more hidden historical aspects that have helped to shape this fabric. My aim is to create a body of work that can be seen in two forms: the immediate portrait or scene and the more intimate slices of history embedded within.”
