Thursday, 1st September
18:00 – 20:00

Holly Brown, MA Art and Design: Interdisciplinary Practices
We've Got This

We've Got This is a children's advice help book, with affirmations which are positive statements. These statements can help with problem solving and how to overcome negative thoughts that I, and those who have contributed to the content have found useful to keep in mind when growing up. Accompanied with the books are activity sheets, stickers and a signed print.

We've Got This is no ordinary book; by installing the app EyeJack on your smart device, you can make the book come alive

and interact with the book and its characters, which brings a whole new dimension to the physical book!
