31st August to 4th September 2022

Private view:
Thursday, 1st September
18:00 – 20:00

Robert Maurice King, MA Fine Art
FUSED

FUSED is a playful representation of the relationship many of us might share with technology.

The extended processes that feed into the making of a stop-motion animated short film include sculpture, painting, filming, animation, digital editing, sound production etc. and blur the divide between physical art making and digital processing.

This work examines the connection between our physical human existences and the impact digital technologies have on us.
