

Kaleidoscope MA Degree Show Birmingham School of Art Birmingham City University 31st August — 3rd September 2023

Darius Martisius MA Fine Art
Biomorphic Morphism

The creative process begins with automatic writing and drawing without preconceived notions or planning.

The sketches are carefully studied and improved by highlighting or erasing lines, thus producing interesting unseen forms or stories. The selected drawings are used as a reference for the sculpture's creativity.

The works created are often irrational — unconventional figures that reflect strangeness but equally create a magical environment where you can experience a breath of enigmatic beauty.
